

AMENDMENTS TO THE CLAIMS

The following is a complete, marked up listing of revised claims with a status identifier in parentheses, underlined text indicating insertions, and strikethrough and/or double-bracketed text indicating deletions.

1. (Currently Amended) Snuff-box lid having a bottom lid and a cover lid, which together define a first enclosed space, which is separated from a second enclosed space, the first enclosed space being intended for storing used snuff, wherein the cover lid is moveably secured to the bottom lid by a hinged joint with end pins which are snapped into corresponding recesses in the bottom lid, wherein the cover lid is held fast in a closed position by a snap-fit tab, which interacts with a corresponding snap-fit part on the bottom lid and the bottom lid forms a tight unit.

2. (Cancelled)

3. (Currently Amended) The snuff-box lid~~Lid~~ according to claim 1, wherein in the closed position the cover lid is situated entirely under ~~[[the]]~~an upper edge of the bottom lid.

4. (Currently Amended) The snuff-box lid ~~Snuff-box with lid~~ according to claim 1, a sealing foil being adhesively bonded or welded to ~~[[the]]~~an upper edge of the side wall of the bottom container, wherein the foil is bent downwards, leaving the necessary room for the space that is defined by the bottom lid and the cover lid.

5. (Cancelled)

6. (Cancelled)

7. (Cancelled)

8. (Currently Amended) The snuff-box lid ~~Snuff-box with lid~~ according to claim 3, a sealing foil being adhesively bonded or welded to the upper edge of the side wall of the bottom container, wherein the foil is bent downwards, leaving the necessary room for the space that is defined by the bottom lid and the cover lid.

9. (New) The snuff-box lid according to claim 1, wherein the recesses are countersunk into the bottom lid.

10. (New) The snuff-box lid according to claim 1, wherein the snap-fit tab and the hinged joint are within an outer peripheral edge of the bottom lid when the cover lid is in the closed position.
